Country Day School makes every effort to provide bus service to all of its students. However, because we serve the entire San Jose metropolitan area and the variety of locations in which families choose to live, students cannot be offered door-to-door service. While most students walk to and from bus stops, others must be driven to and from bus stops along one of the pre-established bus routes. The only door-to-door service is at 12:00 m.d. for the mid-day early childhood children.

I understand the above and agree to instruct my child on the proper behavior for riding on a school bus. I also understand that disruptive behavior may result in loss of bus privileges.
